LANGUES

- Arabe
- French
- English

COMPÉTENCES

Artificial Intelligence

- ML/DL
- Computer Vision
- NLP
- RAG
- Generative AI
- LLM(Gemini,Claude)
- Prompt Enguneering

Programming & Frameworks

- Python
- Tensorflow
- Keras
- PyTorch
- Scikit-learn
- OpenCV
- Streamlit

Web & Full Stack

- JavaScript
- React.js
- Flask
- REST API
- HTML/CSS
- PostgreSQL/MySQL
- SQL

Tools & Platforms

- Git/Github
- Docker
- VS Code
- Jupyter
- AWS

BEL CAID ATIMAD

Master’s student in Artificial Intelligence with hands-on experience in NLP, Computer Vision, Generative AI, and Full-Stack AI application development. Passionate about building intelligent, scalable, and real-world AI solutions.

EXPERIENCE

June 2026 - July 2026

Artificial Intelligence at CodeAlpha | Internship

May 2026 - June 2026

MachineLearning at Codveda Technologies | Internship

EDUCATION

Master’s Degree in Artificial Intelligence,

Artificial Intelligence, Machine Learning, Deep Learning, NLP, Computer Vision, Big Data, Generative AI
Faculty of Sciences Semlalia | 2025 - Actuel

Bachelor’s Degree,

Mathematical and Computer Sciences, Algorithms, Databases, Software Engineering, Web Dev, Networks, OOP
Faculty of Sciences Semlalia | 2022 - 2025

PROJECTS

Sign Language Translation System – Real-Time AI Vision Assistant

- Developed a real-time sign language translation system using computer vision and Edge AI. Fine-tuned an EfficientNet-B0 model (98.5% accuracy on 29 classes), integrated MediaPipe-based hand detection, deployed AI inference with ESP32-CAM and Flask, and implemented multimodal feedback (text, audio, speech) with a web dashboard for real-time monitoring.
- Technologies: Python, TensorFlow, Keras, EfficientNet-B0, MediaPipe, OpenCV, Flask, ESP32-CAM, Arduino C++, gTTS.

University Conversational Assistant – AI-Powered Educational Assistant

- Developed an AI-powered conversational assistant using Retrieval-Augmented Generation (RAG) to answer questions from course materials. Implemented document processing, vector-based retrieval, Gemini AI integration, automatic exam and summary generation, PDF export, and a React.js interface with a Flask REST API.
- Technologies: Python, Flask, React.js, Gemini AI, RAG, NLP, REST API, PyMuPDF, ReportLab.

NutriVoice-AR – Intelligent Arabic Nutritional Analysis System

- Developed an AI-powered web application for Arabic voice and text meal analysis.
- Implemented hybrid Named Entity Recognition (spaCy + LLM) for food extraction.
- Built a Flask REST API with JWT authentication and PostgreSQL integration.
- Designed responsive RTL interfaces with speech recognition and nutritional dashboards.
- Technologies: Python, Flask, PostgreSQL, spaCy, LLM, NLP, JWT, JavaScript, HTML/CSS, Chart.js, REST API.
